## EXPERIENCE

### 2019 – TECHNOLOGY RISK CONSULTANT – VERIZON COMMUNICATIONS Present BASKING RIDGE, NJ

Played an integral role in Verizon’s audit - technology division, assessing internal IT systems and the consumer network processes of one of the biggest telecom companies in the world. Working hand in hand with the companies’ business and application management teams, helped effectively identify risks to the Verizon systems infrastructure, which includes, but is not limited to:

- Logical access, change management, data security, physical security, and database administration of 3000+ Verizon internal and external applications
- Verizon network traffic and equipment assessments, servicing over 118 million subscribers
- Third party compliance and regulatory risk assessments for domestic and international vendors

### 2017 – IT AUDIT AND ASSURANCE ASSOCIATE – KPMG LLP 2019 SHORT HILLS, NJ

Provided IT advisory services to clients across various industries, while engaging more comprehensively with clients in the financial services and commercial sectors. These services focused on external audit support, assessing the IT general controls for the Sarbanes-Oxley reporting of many notable Fortune 500 retail and financial institutions. This testing was supported by insight into various IT infrastructures and environments, including:

- Windows/Active Directory and UNIX/AIX/Linux
- Database infrastructures run on Oracle and Microsoft SQL
- ERP systems such as SAP and Oracle, in addition to other HR and Financial modules and proprietary systems

### 2010 – IT PROGRAM MANAGER – V.E. ANDREI BARIATRIC ASSOCIATES Present WEST ORANGE, NJ

Under the guidance of the lead surgeon at Bariatric Associates, managed all IT operations of this NJ bariatric practice. IT program management responsibilities involved designing and managing the practice website, implementing a patient portal/workflow, and integrating a mobile application.
